has successfully completed a course on Hamoye

Practical Time Series Analysis & Forecast

ID: 146bc6ef0e41f000

Grade: **70.0%**

In this course, we'll explore and build time series forecasting models for measurements of electric power consumption in one household with a one-minute sampling rate over a period of almost 4 years. NB: A tag-along project must be done and submitted at the end of this course; find instructions for submitting the Tag-along project at the graded quiz.
